

WORK Independent Living Counselor Provider List

Independent Living Counseling is a service designed to assist members to navigate the WORK program and guide them with self-direction of their *WORK* services.

- All WORK members are **required** to have an Independent Living Counselor.
- Independent Living Counseling is **not Targeted Case Management**, and the responsibilities of a *WORK* Independent Living Counselor (ILC) are not the same as a Targeted Case Management (TCM) service.
- WORK members **cannot receive TCM services**. If you have a TCM that is interested in becoming a WORK ILC so they can continue to work with you, please have the TCM reach out to your MCO Care Coordinator.
- ILCs provide members with assistance to navigate program processes, paperwork, and budgets. ILCs may provide education, assistance, and guidance with eligibility, assisting to make choices within the program, development of Individualized Budgets and Emergency Backup Plans, and assistance with fiscal management services.
- ILCs offer information and tools, such as the on-line self-direction training, to assist members to self-direct services and manage budgets and may assist members to access these tools.

The below list is not a comprehensive list. The agencies listed may or may not be able to take on new clientele. It is the member’s responsibility to find an ILC that can provide services. This may take multiple phone calls. You can ask your MCO Care Coordinator for assistance.
