HHS Announces Enhanced Provider Portal, Relief Fund Payments for Safety Net Hospitals, Medicaid & CHIP Providers

On June 9, The U.S. Department of Health and Human Services (HHS), through the Health Resources and Services Administration (HRSA), is announcing additional distributions from the Provider Relief Fund to eligible Medicaid and Children's Health Insurance Program (CHIP) providers that participate in state Medicaid and CHIP programs. HHS expects to distribute approximately \$15

billion to eligible providers that participate in state Medicaid and CHIP programs and have not received a payment from the Provider Relief Fund General Distribution. HHS is also announcing the distribution of \$10 billion in Provider Relief Funds to safety net hospitals that serve our most vulnerable citizens. The safety net distribution will occur this week.

"Healthcare providers who focus on treating the most vulnerable Americans, including low-income and minority patients, are absolutely essential to our fight against COVID-19," said HHS Secretary Alex Azar. "HHS is using funds from Congress, secured by President Trump, to provide new targeted help for America's safety-net providers and clinicians who treat millions of Medicaid beneficiaries."

HHS is providing support to healthcare providers fighting the COVID-19 pandemic through the bipartisan CARES Act and the Paycheck Protection Program and Health Care Enhancement Act, which allocated \$175 billion in relief funds to hospitals and other healthcare providers, including those disproportionately impacted by this pandemic.

KanCare Ombudsman Liaison Training Now Available in Video Format

The KanCare Ombudsman Office has just published the [KanCare Ombudsman Liaison Training videos](#) on YouTube. They are now available for viewing. It's the same training we previously provided at the 4-hour in-person trainings throughout Kansas, but it's been converted into 10 videos that you can watch from anywhere, on your own time, at your own pace. You can watch all 10 videos in order to receive the same training format we previously provided in person. However, each video is titled by topic(s) covered, so you also have the choice of just watching what's most valuable for you. The videos provide audio and open captioning as well. Many thanks to Lisa Churchill, our past Volunteer Coordinator, who ensured this project was completed before moving to another position.

Did You Know? History of Kansas Medicaid Managed Care

Implemented in 2013, KanCare is the umbrella term for Kansas Medicaid managed care and CHIP (Children's Health Insurance Program). While most Kansans are somewhat familiar with KanCare and the changes the shift from fee for service to managed care brought for our providers and members, you may be interested to learn that KanCare is not our State's first foray into managed care with the Medicaid population.

Kansas actually has a long history of Medicaid managed care though not to the same scale as was ushered in with KanCare. Here at KDHE-DHCF we believe that history matters. We offer a course designed to:

- Explain the long history of Medicaid managed care in Kansas, including the legislative requirement for it.
- Detail how various Medicaid populations and geographic regions were included in managed care prior to KanCare.
- Call out the differences and similarities between KanCare (today's Medicaid managed care) and earlier Medicaid managed care programs.

To learn more about Medicaid and the History of Kansas Medicaid managed care, watch for Medicaid Training information. KDHE-DHCF offers an hour-long class on the topic.

ENHANCED PROVIDER RELIEF FUND PORTAL

HHS is launching an enhanced Provider Relief Fund Payment Portal that will allow eligible Medicaid and CHIP providers to report their annual patient revenue, which will be used as a factor in determining their Provider Relief Fund payment. The payment to each provider will be at least 2 percent of reported gross revenue from patient care; the final amount each provider receives will be determined after the data is submitted, including information about the number of Medicaid patients providers serve.

The initial General Distribution provided payments to approximately 62 percent of all providers participating in state Medicaid and CHIP programs. The Medicaid and CHIP Targeted distribution will make the Provider Relief Fund available to the remaining 38 percent. HHS has already provided relief funding to over one million providers, and today's announcement is expected to reach several hundred thousand more providers, many of whom are safety net providers operating on thin margins.

Clinicians that participate in state Medicaid and CHIP programs and/or Medicaid and CHIP managed care organizations who have not yet received General Distribution funding may submit their annual patient revenue information to the enhanced Provider Relief Fund Portal to receive a distribution equal to at least 2 percent of reported gross revenues from patient care. This funding will supply relief to Medicaid and CHIP providers experiencing lost revenues or increased expenses due to COVID-19. Examples of providers serving Medicaid/CHIP beneficiaries possibly eligible for this funding, include pediatricians, obstetrician-gynecologists, dentists, opioid treatment and behavioral health providers, assisted living facilities, and other home and community-based services providers.

To be eligible for this funding, health care providers must not have received payments from the \$50 billion Provider Relief Fund General Distribution and either have directly billed their state Medicaid/CHIP programs or Medicaid managed care plans for healthcare-related services between January 1, 2018, to May 31, 2020. Close to one million health care providers may be eligible for this funding.

More information about eligibility and the application process is available at <https://www.hhs.gov/coronavirus/cares-act-provider-relief-fund/general-information/index.html>.

\$10 BILLION ALLOCATION FOR SAFETY NET HOSPITALS

HHS is announcing the distribution of \$10 billion in Provider Relief Funds to safety net hospitals that serve our most vulnerable citizens, recognizing the incredibly thin margins these hospitals operate on. This payment is being sent directly to these hospitals via direct deposit.

This payment is going to hospitals that serve a disproportionate number of Medicaid patients or provide large amounts of uncompensated care. Qualifying hospitals will have:

- A Medicare Disproportionate Payment Percentage (DPP) of 20.2 percent or greater;
- Average Uncompensated Care per bed of \$25,000 or more. For example, a hospital with 100 beds would need to provide \$2,500,000 in Uncompensated Care in a year to meet this requirement;
- Profitability of 3 percent or less, as reported to CMS in its most recently filed Cost Report.

Recipients will receive a minimum distribution of \$5 million and a maximum distribution of \$50 million.

ADDITIONAL PROVIDER RELIEF FUND UPDATES

- On June 8, 2020, HHS sent communications to all hospitals asking them to update information on their COVID-19 positive-inpatient admissions for the period January 1, 2020, through June 10, 2020. This information will be used to determine a second round of funding to hospitals in COVID-19 hotspots to ensure they are equitably supported in the battle against this pandemic. To determine their eligibility for funding under this \$10 billion distribution, hospitals must submit their information by June 15, 2020 at 9:00 PM ET.
- HHS is working on an additional allocation to distribute relief broadly to dentists.

For updated information and data on the Provider Relief Fund, visit hhs.gov/providerrelief.
