Tell us your Social Security Numbers

We need Social Security Numbers (SSNs) for everyone applying for medical assistance. People on the application who are not applying for medical assistance for themselves may choose not to give their SSN. But if there is income to allocate from a spouse who lives in a nursing home to a spouse who lives in the community, having the SSNs for both can speed up the application process.

We use SSNs to check income and other information to find out who qualifies for medical assistance. If someone doesn't have an SSN, call 1-800-772-1213. Or visit www.socialsecurity.gov.

Tell us your citizenship status

Be sure to tell us whether you and your spouse are U.S. citizens. If not, please tell us your immigration status. Applying for KanCare Medical Assistance does **not** affect your immigration status.
