## What is OneCare Kansas?

OneCare Kansas provides extra help if you have a serious health condition and are part of KanCare. Being a part of OneCare Kansas will make things easier for you by helping you take care of your health. This can help lower your hospital visits and improve your health and well-being.

## What does this mean for you?

- These services will help you be as healthy as you can be
- You get to choose if you want to join
- You can join OneCare Kansas and still get other services
- Being a member of OneCare Kansas doesn't change your legal rights

## How much does this cost?

Nothing. OneCare Kansas is free to you.

## Are these services for you?

You may qualify for OneCare Kansas if you are in KanCare and:

- You have Asthma and other health care needs OR
- You have Schizophrenia, Bipolar Disorder, or Major Depressive Disorder

## How do services work?

OneCare Kansas services are provided by your KanCare health plan and a provider in your area. A Care Manager meets with you to help you set up a health action plan. The Care Manager stays in touch with you and the other providers to make sure everyone understands what you need to stay as healthy as possible.

## What will this do for you?

- Provide support to help you manage your health
- Make sure you get the right health care services at the right time to stay as healthy as possible
- Help you find and get support services in your community

## How do you start?

- After you get an invitation letter, just contact your health plan to start

## Will this change the people you work with now?

- No, you can work with the same people.
- Other people may join your team to help you meet your health goals
- You can still work with:
  - Your KanCare health plan
  - Your community mental health center or other providers
  - Other people you work with (doctors, nurses, counselors)
- There is an exception with targeted case management. You will no longer work with your targeted case manager.
