### Kansas Medical Assistance:

- **Hospital and clinic bills** – ask about *Patient Financial Assistance Programs*. Ask “what are the qualifications?” for each hospital or clinic. The hospital or clinic may write off the patient co-pay (bill) or allow the patient to make a lower payment if eligible for the program.

**Community Care Clinics** provide whole-person, comprehensive care for the body, mouth, and mind, regardless of ability to pay. The clinics review each patient based on eligibility and a sliding scale. Many of the clinics take Medicaid, but not all; it is best to ask when you first contact them. If they say they take Medicaid, you should ask if they take your company’s insurance (Aetna, Sunflower, United).
