

Policy Clarification 2016-11-02

Title: Burial Plans

Date: 11/15/2016

From: Rod Estes, Elderly & Disabled Medical Policy Manager

Program impacted: All Elderly & Disabled Medical Assistance Programs

After doing extensive research on this subject, we have come to the conclusion burial plots are exempt, one per family member. This includes the extended family and not just immediate household members. Please continue the current process of exempting them. Code them as burial spaces, valued at \$100 apiece, unless client reports something different. If there are any questions as to who qualifies as extended family, send it up to policy for clarification.
