

OneCare Kansas Codes

OneCare Kansas (OCK) is a bundled service where individual core services provided within any month are not billed as fee-for-service. Payment to the Lead Entity from the State is a per member per month (PMPM) payment made retrospectively each month, and unless pre-approved by the State, payment to the OneCare Kansas Partner (OCKP) will be a PMPM.

For an OCKP to receive the PMPM payment agreed upon between the Lead Entity and the OCKP, the OCKP must provide the member with at least one OCK service during the month for which the claim is submitted. Services should be documented per the information provided in Section 11 of the [OCK Program Manual](#) as required by the Lead Entity-OCKP contract.

The table below outlines the billing codes and modifiers for OCK services. Please consult with each Lead Entity for more specific information about their billing instructions.
